V. Other Business

- A. Discussion of NCEE records verification committee letter reference revision records evaluation

Mr. Palmer stated what NCEE's Verification Committee was trying to do was get records verification down in better form. He stated that the committee would like to list land surveyors on their records. Mr. Palmer said his committee would like to have the registrants' state records sent to NCEE and avoid the repetition of filling out the same forms and paying \$95. He passed a single-page records verification containing most of the information required by NCEE and which is verified and updated annually; NCEE was trying to get the states to accept this. The question on the questionnaire was would Arizona be willing to accept a single-page records verification in lieu of the book. Mr. Palmer stated he would inform NCEE that Arizona would go with that.

- B. NCEE May 4, 5, 6, 1986 Regional Meeting Board representation in San Diego, California

Mr. Palmer suggested that the three engineers, land surveyor and the executive director be authorized to attend the NCEE Regional Meeting. Mr. Palmer would be serving on the Nominating Committee. It was so moved by Mr. Cella and Mr. Riggs seconded. MOTION CARRIED UNANIMOUSLY.

- C. Discussion of California Architectural Board - product of Architectural Examination (Attachment A)

Mr. Riggs stated that California is going to write and administer their own exams and there is a problem with reciprocity and whether their exams will be equal to Arizona's. This will be brought up at the next WCARB meeting this year to be held in Hawaii. Committee requested that Staff make sure that this issue is carried over to the next Board meeting. Dr. O'Bannon wanted to have something about education at all the following meetings.

professional geological registration (Attachment B)
 All AIPG certified applicants are not registered without examination. Staff checks to insure all applicants meet requirements.

- D. NCEE agreement to produce and administer the October 1986 Regional Land Surveyor Examination

Mr. Penland said he hadn't received all the correspondence. He attended the test writing workshop in Clemson in January and the workshop discussed at some length the progress that has been made. Mr. Dalrymple said that apparently subsequent to the January meeting the NCEE Directors met and decided that they would take over and administer the examination as of October of 1986. The Board of Technical Registration will turn over to them the pool and all of the material that has been developed and they will take over the responsibility for developing new items and the analysis of it for putting the examination together and for the printing and distribution to the various states who will be using them.

- E. Formal hearing procedure on C84-57, Raymond L. Garrett, L.S. #14180.

The Attorney General asked that the formal hearing be postponed until additional information is obtained.

- F. Discussion of A.R.S. 32-141 (Attachment B)

The Firm cards are outdated, BTR does not always receive changes as required by law. They go from engineering firm to architectural firm and notification is not received. The Executive Director asked whether a penalty should be imposed because a large amount of staff time is required. The board felt it was necessary to limit the use of the cards, but not pursue strict enforcement.

- G. Discussion of A.R.S 32-106 B. (G.) (Attachment C) Powers and Duties.

Discussion regarding the primary and continuing education of licensees. Assigned to the education committee for analysis, review and report back to the Board by the June meeting.

- H. Discussion of AIPG certification vs. Arizona professional geological registration (Attachment D)

All AIPG certified applicants are not registered without examination. Staff checks to insure all applicants meet requirements.

I. Discussion of Katy James' appeal on Architectural Examination. (John Riggs recommends regrading of Division C examination.)

Mr. Busby attended the grading session and reviewed this test with her. It is his recommendation that it be regraded and he sent it down for Mr. Rigg to look at it. Mr. Rigg made the motion to send the exam back, Mr. Cella seconded it.
MOTION CARRIED UNANIMOUSLY.

J. Discussion of Regional Land Surveyor Examination

The question was asked: Where do we stand with the October and April exams? We have a May meeting scheduled to set the cut-off score.

K. Mr. Riggs requested authorization to attend the meeting. The Board will not have to fund attendance because WCARB will do that. The Board authorized attendance to all meetings by members and Executive Director since funds were available.

L. The Executive Director reported Attorney General's office has adopted a new policy; in that they will provide representation at meetings if we ask for legal counsel on specific issues. If we identify an issue beforehand that we feel we need legal advice on, then they will provide somebody. In the future we won't have a representative.

VI. Public Comment

No public was present for comments.

VII. Future Meetings and Items

The next meeting will be scheduled for June 6.
The following meeting will be September 5, 1986.

Dr. O'Bannon stated items to discuss are requirements of education for licensing. We need to focus on some goals to accomplish. If we're going to modify the law, it will take some action on the Board's part and we need to have some discussion on this and perhaps the meeting in June would decide that the likely consequence would be to assign it to the Education Committee.

Mr. Riggs recommended discussing the Intern Development program and legislative items.

Mr. Palmer stated that every agenda should have a report from each one of the committees.

VIII. Chairman Comments

We did have a Budget Committee meeting yesterday at which the Board became a little more involved in the setting and the policies of the budget. Our budget for next year has been cut drastically from what we would have liked, which means some streamlining of activities on the staff level. The Budget Committee is looking into means and methods of doing that.

The Chairman presented a plaque honoring John Riggs for service as Arizona State Board of Technical Registration Chairman, 1983 - 1984.

IX. Vote To Go To Executive Session

Mr. Riggs moved and Mr. Mlnarik seconded to go to Executive Session. MOTION CARRIED UNANIMOUSLY.

Mr. Cella moved and Mr. Riggs seconded to deny applications for lack of experience and failure to meet the requirements of the Board on Exhibit B#3 and #4. MOTION CARRIED UNANIMOUSLY.

V. Full Board Review

A. Clifford Robinson

Mr. Cella moved and Dr. O'Bannon seconded that Mr. Robinson be advised that he cannot be registered as a civil engineer since he has no civil engineering experience but he would be allowed to take the structural test. MOTION CARRIED UNANIMOUSLY.

B. Miguel Tellechea

Mr. Palmer recommended a full board review of Miguel Tellechea. Letter to be sent regarding his lack of experience to be registered as a mechanical, however, he might be able to be registered as structural if he took that part of the test.

C. Ahmad Alsughaiyer

Dr. O'Bannon reviewed file; name spelling and birthdate differed on application and transcript. Returned to staff for clarification with Alsughaiyer.

D. Kathleen Sweetman

Ms. Sweetman appeared before the Board wanting clarification relating to the credits given for her experience and requesting credits for her current work situation. G. Michael Hilgers

VI. Mr. Brown moved and Dr. O'Bannon seconded that the April 1986 Assayer and Geological examination results be accepted. MOTION CARRIED UNANIMOUSLY. (EXHIBIT C)

VII. Mr. Brown moved and Ms. Waxman seconded that the grant lists (Exhibit E) be accepted. MOTION CARRIED UNANIMOUSLY.

VIII. Other Business

A. 1) The Western Council Architectural Registration Board Annual Meeting was held in Hawaii this past March. Mr. Riggs reported that seventy-five percent of the meeting was surrounding California's decision to write their own Architectural exam for 1987. Enforcement matters were discussed between states, noting that Arizona disciplinary actions are far greater in number and size than most of the other western states.

2) The Western Zone National Council Engineering Examiners Annual Meeting was held in San Diego... nothing significant...possibility that examination fees might be increased. New director is Quinton Ford of the New Mexico Board.

3) The Western Zone Council Landscape Architectural Registration Board Meeting was held in Reno. Differences in qualifications to sit for the exam from state to state, such as reciprocity, testing and grading.

B. Lapsed Registration Cancellation Action (EXHIBIT F)

Dr. O'Bannon moved and Mr. Riggs seconded that expired registrations on the list be cancelled after one more notification to the last known address. MOTION CARRIED UNANIMOUSLY.

- C. National Council of Architectural Registration Board review process and board of architectural examination review process

Mr. Riggs moved and Dr. O'Bannon seconded that Arizona discontinue the practice of reviewing failed exams on building and site design. The candidate would be able to review their own exam but no one will be able to sit down with them for further review and regrading. The existing NCARB grade process includes a review of borderline failed exams and additional review beyond that regrading or fifth grading is really unnecessary. MOTION CARRIED UNANIMOUSLY.

- D. Discussion of the use of telephone conferences for disposition of enforcement matters

Mr. Penland felt that enforcement matters need to be handled at meetings rather than on the telephone if possible. The telephone would be used if it is necessary for an immediate ruling on a case. No motion necessary.

- E. Discussion of California Architectual Examiners Board action was covered sufficiently in the report on the meeting noted in Item A (1) above.

- F. CLARB asked for approval to provide information regarding pass/fail information by state and location. Mr. Mlnarik moved that staff be authorized to send the information as requested. Greg Harris, Assistant Attorney General, offered information regarding the "confidentiality" of giving out this information. Dr. O'Bannon seconded the motion with an amendment. MOTION CARRIED WITH A VOTE OF 5 AYES AND 2 NAYS.

- G. Discussion of the letter sent from Bill Carey of the City of Phoenix to Anthony Schwann, ACEA Chairman, and Gabor Lorant, AIA President referring to the ruling by the Board of Technical Registration regarding structural engineers' seals on plans. Requested by Victor Olson and Gabor Lorant. Mr. Palmer stated a tape from the 3/6/86 meeting was needed to be listened to for this item under Executive Session. Dr. O'Bannon moved and Mr. Riggs seconded to go to Executive Session. MOTION CARRIED UNANIMOUSLY. Mr. Mlnarik read the Confidentiality Notice. (EXHIBIT G)

Dr. O'Bannon moved that the Board authorize Mr. Palmer, Mr. Penland, Mr. Hanson and the Executive Director to attend the meeting to be held in Denver. MOTION CARRIED UNANIMOUSLY.

RETURN TO OPEN SESSION

Registrants Vic Olson, Craig Walling, Tony Schwann, Jerry Atwood and Paul Scott were present to discuss the Board's ruling that finished drawings should reflect the competency of the professional in the respective category. This guideline will not be limited to structural plans.

IX. Public Comment

No public was present for comments.

- B. 1986-87 Budget Briefing: In the absence of Mr. Dalrymple, Ms. Douglas reported that a dollar amount for the new budget has not yet been established. Knowing that there is available money from this year's budget, the Board authorizes staff to utilize all of it especially for office furniture, etc. needed for the new location and for payment to NCARB.
- C. 1986-87 Accomplishments: Item being tabled until next Board meeting for Mr. Dalrymple's remarks.

XII. Reports

Education Committee: Meeting was not held due to the unavailability of the Executive Director. Mr. Mlnarik mentioned NCARB's resolutions regarding alternatives to the educational program and continuing education, requesting that our representatives to the annual meeting bring back the information needed. A roll-call vote was called by Ms. LoParco:

Mr. Cella	No
Mr. Mlnarik	No
Mr. Brown	No
Dr. O'Bannon	Yes
Mr. Penland	No
Mr. Riggs	Yes
Ms. Waxman	Yes

The motion did not pass with a vote of 4 to 3.

Rules Committee: The Chairman, Mr. Cella, reported that the Committee will meet now that the house bill has passed the legislature. Mr. Cella asked the Board to get to him all the different ideas that have come about for consideration so that the committee can make their recommendations. **EXHIBIT H**

Finance Committee: Mr. Riggs reported that the Committee hadn't met yet because of the delays with receiving the approval on the budget. As soon as that happens and the Executive Director is available, a meeting will be scheduled.

It is necessary for the Board to look at malpractice issues.

III. Adoption of Minutes - June 8, 1986

Mr. Riggs pointed out that his report on NCARB Annual Meeting in Hawaii should not contain the remark that he made that the surf was great. He further pointed out that under NCARB's review process the last sentence needed rewording to say that the existing NCARB grade process includes a review of borderline failed exams and additional review beyond that regrading or fifth grading is really unnecessary. Mr. Riggs said that the discussion of the letter sent from Bill Garay of the City of Phoenix to Anthony Schwann, ACEA Chairman, and Gabor Lorant, AIA President, on EIR's ruling on structural engineers' seals on plans was not complete. Mr. Minarik pointed out that his report on CLASB's meeting in Reno should read "differences in qualifications to sit for the exam from state to state, such as city, testing and grading."

III. Adoption of Minutes - June 6, 1986

Mr. Riggs pointed out that his report on WCARB Annual Meeting in Hawaii should not contain the remark that he made that the surf was great. He further pointed out that under NCARB's review process the last sentence needed rewording to say that the existing NCARB grade process includes a review of borderline failed exams and additional review beyond that regrading or fifth grading is really unnecessary. Mr. Riggs said that the discussion of the letter sent from Bill Carey of the City of Phoenix to Anthony Schwann, ACEA Chairman, and Gabor Lorant, AIA President, on BTR's ruling on structural engineers' seals on plans was not complete. Mr. Mlnarik pointed out that his report on CLARB's meeting in Reno should read "Differences in qualifications to sit for the exam from state to state, such as reciprocity, testing and grading."

Mr. Riggs moved and Dr. O'Bannon seconded that the minutes be adopted after corrections. MOTION CARRIED UNANIMOUSLY.

IV. and V. Evaluation Committee Report and Registration Grant List — *EXHIBIT A*

Mr. Mlnarik moved and Mr. Riggs seconded to adopt the Evaluation Committee's recommendations as shown in Exhibit B and applicants Albanes (Architects) through Akers (Geologists) be granted registration numbers as shown in Exhibit C, 19870 through 19902; applicants Burnett (Architects) through Zaninovich (Land Surveyors) be held for the part(s) of the exam shown in Exhibit B; applicants Dennerline (Landscape Architect) through Lillie (Land Surveyor) be denied registration for the reasons shown in Exhibit B. MOTION CARRIED UNANIMOUSLY.

Mr. Mlnarik said the Evaluation Committee was suggesting a format of the evaluation form to be retained in the applicant's jacket. The Committee was also suggesting guidelines for uniformity and simplicity in evaluating. Mr. Palmer said the "old" members should prepare recommendations for the "new" members.

The Evaluation Committee was recommending that the Board no longer accept the NCEE jacket in its present abbreviated form in lieu of the Board's application form adequately filled out; the NCEE jacket does not contain sufficient information needed for the evaluation. Mr. Palmer, as NCEE's Records Committee Chairman, asked Mr. Mlnarik to recommend what was needed in the NCEE jacket so that he might ask NCEE headquarters to provide a form that will satisfy.

Mr. Mlnarik moved and Dr. O'Bannon seconded that the Engineers In-Training Barr through McGonagill shown in Exhibit C be granted registration numbers 3648 through 3666. MOTION CARRIED UNANIMOUSLY.

- VI. A.1) Mr. Riggs reported that the NCARB Annual Meeting was held in Atlanta, Georgia June 24 through 27. The majority of the time was spent on resolutions. Resolution 10 dealt with continuing education and was passed 32-18. Resolution 12 dealt with the alternative to the accredited degree requirement that NCARB has for certification and failed, which means the Council believes the alternative process to the degree requirement should be continued. Resolution 2 was amended and passed and requires that member boards pay annual dues of \$1500; the current annual dues are \$750. Resolution 3 dealt with changing of legislative guidelines and rules of conduct arising out of a study of design build which is becoming a big issue with NCARB and was sent back to committee for further study.

Resolution 4 required member boards who use the NCARB exam to comply strictly with the NCARB exam rules; if the rules aren't complied by in terms of the administration and grading of the exam, then NCARB can withhold those exams from the member board that didn't comply and this resolution passed. This came about primarily from California's actions in the past in administering and grading the exam differently than other states; their law is different than most of the other states. California wrote their own exam and it will be given in 1987. Resolution 5 failed; it asked that the Council turn around its previous decision to eliminate the examination review process. Resolution 9 passed; it increases the cost of the ARE (Architectural Registration Examination) from \$220 to \$300 effective 1988. Resolution 11 passed; it sets up a committee to write a lateral forces exam to take the place of the seminar that has been held in Utah and also the treatise on seismic design for those who haven't passed the seismic portion of the NCARB exam--effective 1987 or 1988. Resolutions 13 and 14 both dealt with equalizing the representation of regions on the NCARB Board, e.g., Region 1, which is made up of the New England states, has six member boards; Region 6, of which Arizona is a member board, has 13; Region 3, which is the south, has 12. Because of the disparity in the number of jurisdictions within those regions, some regions have a better chance of being represented--both resolutions failed.

2) Acceptance of California Architectural Examination--California is not accepting NCARB's examination; they are creating their own examination. Even though NCARB does not certify California's exam, will Arizona? This question will have to be addressed by the Board.

3) National Council of Engineering Examiners Annual Meeting--Mr. Palmer reported that applicants are going across borders to take examinations, e.g., the NCEE examination is offered in a three-day span, Thursday, Friday and Saturday; Arizona gives it Thursday and Friday, other states give it Friday and Saturday. California has picked up several people who have taken the exam in one state on a Friday, spent the night traveling and taken the same exam the next day in California. They allow that person to take the examination and when the exam is handed in they are informed that they have violated the requirements and are prohibited from ever practicing in California and prosecuted if necessary.

Mr. Palmer reported that the issue of who can do land surveying was discussed, whether civil engineers or land surveyors. This issue was not resolved.

4) Education Committee--Mr. Mlnarik reported that the Committee had addressed the question on education requirements as requested by the Board. It recommends that the rules that pertain to education and experience requirements be amended to add the requirement of one semester appropriate college course work each year over the next eight years so that at the end of eight years a four-year degree would be required. Mr. Mlnarik reported that one other request made of the Committee was that of continuing education. Two states require continuing education and they are Iowa and Kansas. Mr. Riggs moved and Dr. O'Bannon seconded to adopt the Education Committee Report and send to Rules Committee after advice from Attorney General's Office that a rule change can be made. MOTION CARRIED UNANIMOUSLY.

5) Rules Committee--Mr. Cella reported that he had compiled all the proposed changes to the rules that had been suggested and just needed to be written as such. He would hand this package to the new Rules Committee Chairman to process. The Legislative Session has adopted a new Administrative Practices Act which makes the rules procedure much more complicated. Under the old procedure the minimum length of time it took for a rule to be processed was 153 days; the new procedure takes about 9 months. The Secretary of State is holding a training session in October; space is limited so Mr. Cella was getting 2 or 3 spots reserved so that the Board could learn what the changes are and what this new procedure is going to entail.

Stick-on Seals--Dr. O'Bannon moved and Mr. Riggs seconded that stick-on seals no longer be allowed. MOTION CARRIED UNANIMOUSLY. (EXHIBIT D)

6) Finance Committee--Mr. Riggs broke his report into three parts: the 1986-87 budget, supplemental appropriations, and the 1987-88 budget. The current budget, 1986-87, will allow essentially the same activity as in 1985-86 with two exceptions--the budget will allow for three clerical positions; last year two of those positions were unpaid interns and one was a paid temporary. An investigator will start approximately October 1. The Board is submitting for a supplemental appropriation of about \$50,000--\$20,000 for validation of the land surveyors exam, \$7000 for additional rent, \$9000 for computer equipment, \$13,000 for investigators' travel, and for 2 additional newsletters this year. The 1987-88 budget is currently being prepared and will be completed for approval by the Budget Committee by September 22; it needs to be submitted to the state by September 30. The 1986-87 budget will be used as a basis and about nine items added to that, e.g., automobile expenses for the investigator, printing of new rules and

statutes, printing a full roster. The budget will be impacted by the decision on whether to have an outside company administer exams, maintenance of test questions, possibly funding for a hearing officer.

B. Discussion of ASEE's Resolution

Mr. Cella moved and Mr. Kesler seconded to have the Executive Director send ASEE a letter advising them of the wording of our law and the action the Board takes. MOTION CARRIED UNANIMOUSLY. (EXHIBIT E)

C. Discussion of Board's Decision on Engineer Plan Stamping - Date of Applicability

Mr. Riggs moved and Dr. O'Bannon seconded that stick-on seals not be allowed as of the date of the next newsletter and that the action the Board took last June regarding other disciplines stamping plans be enforced on January 1, 1987. MOTION CARRIED UNANIMOUSLY.

D. Discussion of Local Land Surveyor Examinations

Mr. Dalrymple stated that Mr. Penland had raised the question of whether the Board could hold reciprocity land surveyor candidates to a one-hour local examination. This was discussed with the Attorney General's representative and it was determined it would take a rule change. The Board does not currently recognize a one-hour exam in the rules.

E. Discussion and Action of Examination Appeal Procedures

F. Waiver of E.I.T. Exam - Robert D. Zicafoose

Mr. Zicafoose asked that the Board consider his college credit of 60 hours, his work experience of 22 years, the fact that he's a certified engineering technician, the fact that he has passed the P.E. exam, and that he has taken the E.I.T. exam about 7 or 8 times with the high score of 66. Mr. Cella moved and Mr. Kesler seconded to deny waiver per A.R.S. 32-136 C. Dr. O'Bannon abstained. MOTION CARRIED.

G. Discussion and Action on Definition of "Alteration" as used in A.R.S. 32-144

Mr. Kesler moved and Mr. Riggs seconded to enforce 32-144 A.5 as written. MOTION CARRIED UNANIMOUSLY.

Dr. O'Bannon moved and Mr. Riggs seconded to instruct the Executive Director to interpret "alteration" as any change to a building, as it applies to the law, that requires a building permit. MOTION CARRIED UNANIMOUSLY.

H. Discussion and Action on Arizona Fire Protection Association Letter of August 15, 1986 (EXHIBIT F)

The Fire Protection Association asked that the State Board look at the requirement for the need of registered engineers on fire protection plans. They asked that the Board accept the Texas State Board's policy statement that planning and installation of fire sprinkler systems by FPA standards does not constitute the practice of engineering. Our law states that alterations to any building in excess of 3000 square feet or the design of a building or structure in excess of 3000 square feet requires the use of registered professionals; most of those buildings include a fire sprinkler system. They are having problems in getting fire protection plans through the building officials; they are requiring the plans be done by engineers. The FPA is asking that the Board adopt a similar policy to that of Texas. Dr. O'Bannon moved and Mr. Riggs seconded that registration stamp be required for fire protection systems. MOTION CARRIED UNANIMOUSLY.

I. Discussion and Action on NCEE letter of July 14 regarding Building Inspector Registration requirements and Board policy on Building Inspectors (EXHIBIT G)

There was a question whether this meant general field inspection or people working in the public sector as inspectors for the Building Safety Departments, which prompted NCEE to send this form out. There is no requirement that states inspectors have to be registered. Mr. Palmer stated he would mail this request answering no to all questions. Mr. Palmer suggested that the Rules Committee consider whether registration should be required. He said he had written a personal letter to the Pima County Building Safety Department; the Department is replacing their Building Inspector and he suggested that they consider that the person who fills that position be registered.

VII. Executive Director's Report

A. 1985-86 Accomplishments--Mr. Dalrymple reported an 18% increase in applications in Licensing, a 20% increase in examinations; a portion of this is due to the increase in ADOT building program for the two freeways and major arteries in Maricopa County and a lot of it due to Arizona being one of the fastest growing areas in the country. Registrations increased 6%. In Enforcement 62 cases were carried over and there were 253 new cases for a total of 315--24% increase; the Board closed 221, approximately 70%. Ninety-four cases are being carried forward into the next year. Administration added the application program to the computer and added an applicant history file, a degree field, a comment field to the registration record

and also added an Enforcement program to the Investigation computer. Staff also updated the 1-2-3 program for budget purposes, added a bookkeeping program and an inventory program to the administration computer. Staff changes included upgrading a Licensing clerk to Examiner Technician I, the Investigations clerk to Secretary and the temporary Clerk I to Clerk Typist II (converted to permanent position in this year's budget) through the Clerical Maintenance Review. Staff also upgraded the telephone system, adding additional lines, and published two newsletters.

B. 1986-87 Budget Briefing--Mr. Riggs covered it in the Budget Committee Report; the Board will maintain the level of services, there will be a slight increase in Enforcement activity because of addition of a new Investigator, there will be some clerical assistance available, the budget will be extremely tight as a result of budget cuts made by Legislature.

VIII. There was no public comment.

IX. Nomination and Election of Officers

Mr. Riggs nominated Mr. Cella for Chairman and Dr. O'Bannon seconded it. Dr. O'Bannon moved nominations be closed and Mr. Riggs seconded it. Mr. Riggs nominated Mr. Mlnarik for Vice Chairman and Dr. O'Bannon seconded it. Dr. O'Bannon moved nominations be closed and Mr. Riggs seconded it. Mr. Riggs nominated Dr. O'Bannon for Secretary and Mr. Mlnarik seconded it. Mr. Riggs moved that nominations be closed. Mr. Riggs moved that one ballot be valid for all positions and Mr. Kesler seconded it. MOTION CARRIED UNANIMOUSLY.

X. Future Meetings

The next meeting was scheduled for December 5 at ASU; the following meeting was scheduled for March 6 at U of A; the following meeting was scheduled for June 5 at ASU; the following meeting was scheduled for September 4 at NAU.

XIII. Chairman's Comments

Mr. Palmer stated he had set several goals when he took office last year. For the staff he had Enforcement actions to be on the computer by December 31--this was almost accomplished; office financial records on the computer by June 30--this was accomplished; Board newsletters to all registrants, state legislators, governor and all building inspection departments to be sent no later than October 15, February 15, April 15 and July 15--only two newsletters went out; all Board minutes to be sent to Board members within fourteen days after a meeting

(if a full set of minutes cannot be completed, then at a minimum, those items requiring staff or Board member action)--this was not accomplished and he hoped that the next administration can accomplish this because people have very short memories and they forget what is going on; review and, if necessary, replace standard forms presently being used--design new forms that may be necessary, considering using NCEE and NCARB standard forms by November 29, 1985--this was not fully accomplished, Mr. Riggs will have a new registration certificate in December. Review methods of reviewing applications so both members and staff are consistent in their review (consider dual registration and reciprocity education outside the U.S. There are several states that register only as engineers and there is difficulty determining whether they're civil, structural, mechanical or electrical) by January 31, 1986--this has not been accomplished; provide a copy of the Policy Manual to all Board members and staff to be completed by November 29, 1985 with updates as they occurred--this was accomplished; staff names, job assignments, job descriptions to be completed by November 29, 1985--this was in some minutes but never presented in a written form; financial report at each regular Board meeting--had verbal report but would like it on paper so that everybody can see what the budget is and where the money is expended; conduct meetings with building inspection departments to review laws and rules--some have been conducted.

Education Committee - Developed a very reliable examination for Part 4 of Land Surveyors; it was reviewed by NCEE after its use as Western Zone examination and will be used by NCEE in October and in future examinations--this was done very well; reviewed Architect seismic requirements to determine if they meet the intent of the code rules and are verifiable--NCARB is in the process of writing some seismic examinations; reviewed other local examinations as suggested in Sunset Review; provided advisory committees and Board members training by having a mock complaint starting with initial complaint, staff action, advisory committee hearings, Board action and staff consent hearings before the December Board meeting.

Legislature and Rules Committee - review the code and suggest any changes so they may be considered for Legislative Session in January, review NCEE model law, NCARB model law and Landscape Architects model law--Messrs. Riggs, Cella and Palmer attended meetings in November with the legislature to help them write the proposed statute changes and stay on top of the Legislative Session; the Interior Designers wish to be registered and attempted to come under the Board's direction. Review rules by NCEE, NCARB and others as they may apply to code--because of the legislative action, rule changes were not started and

need to be accomplished now that the laws have changed. Standard interpretation of codes and rules that may be used by all Board members and staff regarding use of seal, work outside disciplines--this has not been accomplished; the Auditor General's report suggested insurance companies report claims to the Board, the new law requires that the attorney who files a civil law suit notify the Board. Consider the requirements to pass the in-training test prior to taking professional exam (consider the possible problem that if a person passes the second part and takes the Board to court, would the court consider that he has demonstrated the technical knowledge to protect the public). Make recommendations on additional education.

Budget and Finance Committee - Review staffing requirements with the Executive Director; take an active part in the creation of the budget; review budget with the Board in an understandable format; report financial conditions at each regular meeting.

Mr. Riggs asked that discussion on requirement of IDP (Intern Development Program), elimination of in-training exam, discussion of having advisory committees do evaluations, and certification of employment for applicants being evaluated be on the agenda at the next Board meeting.

XI. Vote to go to Executive Session

Mr. Cella moved and Dr. O'Bannon seconded to go to Executive Session. MOTION CARRIED UNANIMOUSLY.

While in Executive Session Dr. O'Bannon asked the Chairman to excuse the staff from the room because he had some matters of personal concern to discuss. Staff was out for about twenty minutes.
