C. Enayati, Darioush - Electrical #930006

Mr. Darioush Enayati addressed the Board regarding the April 1994 Electrical Engineering Examination Results.

Board Members discussed the issue with Mr. Enayati. Board Members, Assistant Attorney General and staff discussed.

Ms. Wheeler moved that with respect to electrical applicant #930006 the Board deny application on the grounds of R4-30-101.9. in so far as there is substantial evidence that this applicant is not of good moral character and repute and that there was some copying of the exam in April, based upon, in part; our determination that the applicants chose the same questions to answer, they made the same mistakes, all but three of 40 of the answers were the same, we reviewed the test booklets and determined that for the most part when one applicant provided calculations the other did not and vice-versa, the applicants sat right next to one another, not only just in April but in October prior, we had a professor at ASU take a look at these answers and determine there is significant evidence if not substantial evidence that there was some duplication there was some copying in addition to that we have NCEES's comments along the same lines, based upon those elements just as a part of the discussion, I move that we deny application. Mr. Gerlach seconded. (Mr. Gerlach stated that some of those concerns include identical algebraic errors, a certain conceptual problem that was identical to the two applications, certain sine errors, again algebraic, or conceptual that appeared identical on the problems and very, very similar approaches on problems where there is an opportunity where there is an opportunity for multiple path, so that is additional information.) MOTION CARRIED.

D. Elhag, Ismail - Electrical #900423

Mr. Ismail Elhag addressed the Board regarding the April 1994 Electrical Engineering Examination Results.

Board Members discussed the issue with Mr. Elhagti. Board Members, Assistant Attorney General and staff discussed.

Ms. Wheeler moved that with respect to electrical applicant #900423 the Board deny

application on the grounds of R4-30-101.9. that the applicant is not of good moral character and repute because there is substantial evidence that there was some duplication and copying at the April exam, including but not necessarily limited to; the fact that both applicants chose the same questions to answer, they made the identical mistakes, with regards to the multiple choice examination, all but three of 40 of the answers were identical, they sat together at the April examination and the October examination prior to that, the NCEES examiners have determined that there some impossibilities and highly unlikely answers that could not have been obtained if it were not for some duplication and copying on the part of the applicant, that with respect to the booklet that we have examined a majority of cases where one applicant submitted calculations the other did not and the comments with the Arizona State University Professor who also concluded that it was highly likely that the applicant did not work on his own in answering the questions. Mr. Gerlach seconded. MOTION CARRIED. Mr. Miller voted no.
