The City has received a submittal which requires a Civil Engineer's seal and signature. The print that was submitted appears to have been mechanically reproduced. On contacting the registrant, he states that he was not involved with this project and has no knowledge of this use of his seal.

The registrant is Mr. Hemant K. Patel (Civil 20819). He can be reached at Aztec Engineering (602) 454-0402.

This project is the engineered lot grading plan and drainage calculations for the Mendez Residence, Lot 34, Circle G at Riggs Homestead Ranch, Unit V.

The conduct that violates the Board statutes is: illegal use of a seal.

We are unable to determine who specifically used the copy of the seal on the submittal.

The title block of the grading plan shows that it was prepared by Gilbert Auto Cad, 210 N Palm St, Gilbert, Az, 85234 (602) [sic] 497-2828. The date in the border of the sheet would be consistent with a CAD plot made specifically for this submittal.

I am in reference to an unauthorized use of my Civil Engineering seal, #20619, which was detected by David Jeffers, with the City of Chandler Plans Review Department, regarding my seal on a plan submitted to the City for review that had several technical problems. I am glad Mr. Jeffers was gracious enough to give me an opportunity to answer his concerns, especially since I have never worked on this project and have to conclude that my seal was utilized without my authorization.

I am very concerned about this matter and hereby file a complaint with the State Board and the City of Chandler regarding this matter. It is my understanding that my seal was in a reproduced format shown on a hard print for the Minder residence in Chandler, Arizona. It is also my understanding that the above referenced plan sheet was submitted by Gilbert AutoCad, Inc., dated 5/31/00.

I appreciate your assistance in resolving this matter. If further action or additional information is required, please contact me at 602-454-0402.

To
State of Arizona
Board of Technical Registration
c/o Nan Mitchell
1990 West Camelback Road
Suite 406
Phoenix, AZ 85015-3465

Gentlemen::

I am writing to you in response to your letter of inquiry dated November 1, 2000, and also as a follow-up to my conversation with Ms. Mitchell of your office. The matter number is MIR01-039 and the project in question is the Mendez Residence, Lot 34, Circle G at Riggs Homestead Ranch, Unit V. More specifically, the civil engineer seal on the lot grading plans that were submitted to the City of Chandler in May or June of this year.

Woodstone Homes, Inc., for which I am the President and only active employee, contracted to build a custom home for the Mendez family on Lot 34 in the above mentioned on August 19, 1999. The Mendes' were buying a lot in a yet to be completed subdivision in South Chandler. The Mendez plans were drawn by Gilbert Auto-Cad and submitted for review to the Developer, Circle G Development of Mesa, for review and approval for construction. Upon receipt of a written approval by Circle G Development, the Mendes' had to wait for their lot to be completed before they could close escrow and commence construction.

Upon close of escrow of the lot on or about October 31, 1999, I (Randy Mortensen) was prepared to submit the plans for review to the City of Chandler, when the Mendes' notified me that they had received a call from the homeowners association and they (the homeowner's association) had reviewed the plans and the plans had exterior design features that they wanted changed. We made the changes requested by the homeowners association and Circle G Development graciously reimbursed the Mendes' for the additional costs of drafting, structural engineer review and so forth. However, that process took until February of 2000 and the Mendes' construction financing term was to expire on October 31, 2000.

The construction plans were submitted and reviewed by the City of Chandler and construction of the home began in March 2000. My recollection is that in late May of 2000, we arrived at the Mendez jobsite and discovered that the City of Chandler had put a stop work order on the home because we had not submitted an on-site water retention plan with the other construction drawings. The City of Chandler had not requested the on-site water retention plan when the plans were initially reviewed and approved. Seeing the water retention plan as no great obstacle, we had Gilbert Auto-Cad draw and calculate water retention plans that were accepted by other municipalities in the east valley. The water retention calculations that were done by Gilbert Auto-Cad showed that there was almost 2 times the needed water retention area on the lot. I submitted the water retention plans to the City of Chandler and they were rejected because the City of Chandler informed me that they needed to be sealed by a civil engineer.

STATE OF ARIZONA
BOARD OF TECHNICAL REGISTRATION

page 2

Next I called many civil engineers to ascertain what could be done. The quickest we could have the drawings done was about 5 weeks and at a cost of \$3000.00. A five week delay would have meant that we never would finish the home before the expiration of the Mendes' construction financing. At that point, I photocopied a civil engineers seal and placed it on the lot retention drawings done by Gilbert Auto-Cad and resubmitted the plans to the City of Chandler. The plans were once again rejected by the City of Chandler for not being up to their standards. I talked with the supervisor of the on-lot retention plan reviewer and he agreed to allow the continuation of construction of the Mendez residence pending re submission of the lot retention plans.

INTRODUCTION

The lot retention plans were completed by registered civil engineer and finally resubmitted to the City of Chandler for review on Friday, November 3, 2000. The Mendez residence passed the final City of Chandler Building Safety inspection on Friday, November 3, 2000. When I submitted the lot retention plan to the City of Chandler on Friday, November 3, 2000, the cities' representative informed me of your board's investigation. They informed me that the Mendez home could not be cleared for utility hook-up until your investigation had been resolved and they received notification from your board.

As I told Ms. Mitchell, I take full responsibility for this incident. I regret my actions and realize that I should be disciplined. I realize that there is no justification for what I did and I wish I could reverse my mistake. My biggest concern is the fact that my clients, the Mendes', are innocent victims of my behavior. In light of this letter and earlier phone call with Ms. Mitchell I would hope that your board could inform the City of Chandler of these facts and do what is necessary to allow the Mendes' to enjoy their new home.

I thank Ms. Mitchell for the professional way in which she handled this difficult situation. And if you need anymore information or I can be of any help in the quick resolution of this matter, please contact me.

Respectfully,

Randy Mortensen
